NEWS OF THE MORNING.

The steamer *Washington*, which arrived at New York yesterday, brings home Capt. HARSTENE and the officers and crew who took out the *Resolute*. The weather continues very cold and stormy at the East and the Railroads are all embargoed by the snow. Nothing of interest from Washington. The Investigating Committee is bothered by contumacious witnesses. There has been a breeze in the U. S. Senate about Judge LECOMPTE, of Kansas, the ultra pro-slavery men showing a disposition to screen him.

From Madison, we have seven more ballotings for Senator. Mr. HOLTON has withdrawn his name; the vote, on the last ballot prior to such withdrawal standing thus: Howe 36, Holton 23, Doolittle 9, Jackson 6, Barber 6, scattering 2.—The chances are that Judge HOWE was nominated by the Caucus last night. If so, we trust that he will be cordially supported by all the Republican Members and triumphantly elected to-day.

Pay of the Army.

Among the measures before Congress, there is none more deserving their prompt and favorable consideration than the bill for increasing the pay of officers of the army. Their present rate of pay was fixed twenty-five or thirty years ago, when prices were in general far lower than at present, and a thousand dollars would go as far towards the support of an officer and his family as fifteen hundred dollars now. The great increase of money in circulation, with other causes, has operated hardly upon persons with fixed incomes, by increasing the expenses of living. Officers of the army, whose salaries were former ly sufficient, are obliged now to live upon salaries with the most shortened and stinting economy, often below the standard to which they are expected to adhere, or to throw up their commissions; unless they have, like many British officers, a private fortune.

On account of the notorious inability of officers to maintain themselves and their families respectably on their present pay, resignations are constantly occurring among them, to an extent which threatens seriously to cripple the service. The most valuable officers especially,—men whose abilities and attainments are ornament to that, as they would be to any profession, unwilling to remain deprived of the comforts, which they could easily acquire in civil life, are forced to leave the army and seek civil employment.

Congress has already recognized the grievance, and applied the relief in many other classes of cases. The pay of private soldiers has been raised. The salaries of the heads of departments, and of their employees, have been raised twenty-five to seventy-five per cent. Almost all the officers of the government, of whatever description, except in the army, are now in the enjoyment of increased and sufficient salaries. The officers of the naval service, the other arm of our defence, are liberally paid, and in comparison with military officers of the same grade, or length of service, their pay is excessive.

While the officers pay has been thus practically diminishing, their labors have been constantly increasing. The immense addition to our territory, with its innumerable tribes of hostile Indians, requires the full force of the army, which has been but little enlarged, to be actively employed in guarding it. The garrisons have been withdrawn from the posts throughout the States, with a few exceptions, and their small numbers scattered widely over the vast space between the Mississippi and the Pacific, far from each other, far from their homes, far from civilization. Constant wearisome and harrassing labor is almost unrelieved by intervals of leisure, or social or domestic enjoyments. We have no need to say that now as ever they do their duty fully, faithfully and unflinchingly. It ought to be the sacred care of their country to see that these men, who serve it so diligently, should not go unrewarded,—should not be forced to live in penury, while the treasury is overflowing, and millions are being squandered. The gallant officer should not, in addition to his necessary cares and deprivations, be burdened with the conviction that no reward awaits him; that he must live in hardship and die in indigence; above all those who are dearer to him than life should be protected, since he is not enabled to make provision for them. He fears not death for his own sake. The country ought so to deal with him, that he may not dread death, on account of those whom, dying, he leaves without resource, and without a hope, save in charity.

ILLINOIS MONEY.—Some of our Banks still refuse to receive the notes of the discredited Illinois Banks, and despatches from Chicago yesterday stated that the notes were thrown out there. It seems to be the general opinion, however, that the money will be current again, in a few days, with the exception of the notes of the Stock Security Bank at Danville. This is the Bank that has $60,000 of California State Bonds on deposite with the Comptroller, to secure its notes.

THE COLD MONDAY.—The severe cold, which was experienced here on Monday, seems to have prevailed over an extensive range of country, East and West. At Madison, the mercury was 24 degrees below zero, at Dubuque 37 below; at Quebec 30 below; at Watertown, N. Y., 30 below; at Albany 20 below; at Chicago 23 below. It was a little milder here; the lowest limit reached by the mercury, on Monday morning, being 13 degrees below zero.

THE PARDONING GOVERNOR.—An exchange says that Gov. Clark, of New York, was being shaved the other day, when the barber accidentally tweaked his nose a little too hard:—"Pardon me," said he very naturally. "Put your hand in my coat pocket and pull one out," said the kind hearted Governor. "I'll fill it up for you when you're done."

THE EAGLE'S QUILL WITH WHICH MR. BUCHANAN IS TO WRITE HIS INAUGURAL.—The Baltimore *Patriot* gives the correct version of the Eagle story:

"Senator Brown, of Mississippi, was visiting a friend in the neighborhood of Washington, who has in a cage a fine bald eagle. While this friend was exhibiting it to his guest the imprisoned bird dropped from his wing a feather, which Senator Brown picked up, exclaiming he would forward it as a present to Mr. Buchanan. On his return to Washington he met Mr. Seward, and after relating the incident, told him he intended to send this feather from an eagle's wing to the President elect, that he might appropriately make use of it in writing his inaugural address. "Humph!" responded Seward quietly, in his dry way—"An Eagle—a *caged* Eagle; a Slave Eagle!"

What a world of meaning is couched in those few, but significant words, and how completely they destroy all the romance concerning the Eagle's feather."

Editorial Correspondence of the Sentinel.

MADISON, Jan. 19, '57.

The mercury in the thermometer hereabouts was subjected to a hard test yesterday, marking from 24 to 28 degrees below zero. Early in the morning, and up to this time,—10 A. M. Monday,—it has scarcely risen above 20. There is no wind—nothing but clear, dry cold—regular Arctic weather.

I enclose a copy of the law passed at the last session, authorizing the local boards to extend the time for the collection of taxes, a matter of general interest at this time.

The subject of the U. S. Senatorship of course engrosses all attention. At the informal ballot taken in caucus, on Saturday afternoon, Judge Howe had 25 votes, Mr. Holton 19, and Messrs. Doolittle, Jackson, Randall, and Barber from 5 to 9 each, and several scattering. The friends of Judge Howe are, I think, still sanguine of the success of their candidate. A committee, appointed for the purpose, has prepared and presented to the candidates a series of resolutions, being in effect a sort of test for them to stand by, although there is no unanimity of feeling as to the propriety of this course. The replies of the candidates will, doubtless, be before the caucus to-night, and some definite step will be taken, I think. The spirit of the members is generally good and conciliatory, although some feeling has been excited in consequence of the dictatorial spirit exhibited by sundry outsiders. I believe that if a vote could be taken to-day on the question of the propriety of the Republican members providing a new test, or a further one, beyond the platform, State and National, upon which themselves were elected, there would be a clear majority in the negative. However, it is of course within the power of members to draw out the views of candidates, if they wish (and the candidates are willing) to see how far those views agree with their own. In regard to Judge Howe, I understand that he has said that if, after all, he should be elected under any test beyond the platforms, which expresses the decided sentiments of the members who vote for him, he should feel himself bound to stand by those views—as in the attitude of a counsel, I presume.—I may state this idea too strongly, for Judge Howe is a man who would not compromise any conscientious opinion for a prospect of office, however great; but such is the current rumor.

The Assembly ordered, this morning, six additional ventilators to be placed in the ceiling, the two at present existing being only an aggravation.

Dr. Maxson's joint resolution, refusing preemptions to persons not residents of this State, has gone to the Swamp Land Committee. (By the way, the Dr., who is the representative from Pierce, &c., desires that the impression which has gone abroad, that Hudson is already designated by law as the terminus of the northern division of the LaCrosse Land Grant road, should be corrected. He states that Prescott is within the line of towns, within which the terminus must be made, and has, at least, an equal chance. As one of the "fathers" of Prescott, the Dr. puts in strong claims for that town.)

Mr. Mills, of Grant, is understood to be retained for Mr. Perry, contestant for Waupacca. There will be some rare sport, doubtless, when the case comes up before the House.

A joint resolution to adjourn on the 16th of February passed this morning. It will, doubtless, be kept in Senate ready for the event; but the prospect is good for an early adjournment. Still, I have so often failed, at the commencement of sessions, in such prophecies, that I don't speak confidently on the point.

SENATE.—The Senate this morning chose Rev. Mr. Eggleston, of this city, Chaplain for the session. This unusual course was taken because of the fierce onslaught made upon the clergyman so chosen, on account of his having been very free in the expression of his opinions during the late political campaign, and the Hunkers may thank themselves for it. Mr. Eggleston is a man of ability, and much respected here. He is pastor of the Congregational church.

Resolutions of instructions to Committees were passed in relation to a system of graded schools, and the Senate also resolved to have nothing to do with any business which can appropriately be attended to by the boards of Supervisors.

The Senate amended the adjournment resolution by fixing the 3d day of March as the day.

W. H. W.

AN ACT to authorize the extension of time for the collection of taxes in certain cases.

SEC. 5. This act shall take effect and be in force from and after its passage.

A Cold Morning.

LISBON, Jan. 19th, 1857.

MESSRS EDITORS:—The morning of the 18th of January, being the coldest which I ever experienced in a residence of almost ten years in Wisconsin, I thought best to make a record of the same for future reference. I hereby enclose a copy of said record.

LISBON, Jan. 18th.

At my place this morning, the mercury, for one hour preceeding sunrise, stood at thirty-two degrees below zero. Yours &c.,

SAM'L A. TENNY.

BELMONT, PORTAGE COUNTY.—BELMONT is the name of a new Post Office in the South East corner of Portage County. It is a special office and supplied by a special route from Rural, Waupacca County; therefore all mail matter for Belmont should be sent direct to Waupacca. Mr. A. D. FREEMAN is P. M. at *Belmont*.

THE SENATORIAL ELECTION IN PENNSYLVANIA.—The N. Y. *Evening Post*, has the following comments upon the result of the Senatorial Election in Pennsylvania:

"The doubts which have been expressed of the fairness with which the Presidential election in Pennsylvania was conducted, are clearly justified by this result. There are many who do not believe that the popular feeling of that State is with Mr. Buchanan, or is likely to be. He never carried the State in any election till last November, and the result of the late election by the Legislature only gives new significance to the inquiry by what means he succeeded then. The Legislature has just appointed an agent of the State to oppose his administration at Washington. They have given to the opinion that there is some mistake in the vote for Mr. Buchanan, the strongest practical expression which could be imagined. When it is considered that this choice of a Senator was made in opposition to the personal exertions of Mr. Buchanan in favor of Forney, its significance as a declaration of their want of confidence in his public character, becomes still more decided."

Interesting Railway Statistics.

In the N. Y. *Tribune*, of the 15th inst., we find the following Railway statistics. A portion of the figures have already been published in our paper. It is proper to remark that the population of Wisconsin, as set down in the table, is that given by the State Census of July 1855.—The present population of Wisconsin is but little, if any, short of 750,000:

"The construction of railroads has made greater progress in 1856 than in any previous year.—The number of miles in operation on the 31st December, 1856, is 24,476, against 21,069 at the close of 1855, being an increase of 3,407 miles for the year. The annexed table gives the comparative miles of road in operation in 1855 and 1856 in the various States, and the population and wealth, as estimated by the Secretary of the Treasury:

Estimated increase of property since 1850,				1,500,000,000
Total				$11,317,611,072

The table, condensed, presents the following points. The greatest progress has been made by the eight Western States; next by the Southern States, while the North Eastern States have made but trifling additions to their public works:

	1855.	1856.	Increase
6 Eastern States	3,465	3,575	110
4 Middle States	5,288	5,700	452
18 Southern States	6,150	6,894	1,[illegible]54
8 Western States	7,2[illegible]6	8,397	1,081
Total	21,069	24,476	3,407

The Secretary of the Treasury has prepared a statement showing the cost of Railroads in the United States in 1855, from which we make the following summary. Returns not having been received from a number of Companies, these figures are only approximative:

Capital paid in	$438,366,345	Miles finished	19,936
Funded Debt,	303,187,973	Miles unfinished	16,069
Floating Debt,	49,126,955	Total length	36,005
Exp'd in '55,	$776,[illegible]51,377		
Req'd to finish,	313,829,237		

Total est cost $1,099,581,114 Rec'pts for year, $91,182,653

According to these figures, the average cost per mile would only amount to $30,000, whereas experience proves that $35,000 is nearer the truth. Assuming this estimate, the total cost of the 36,000 miles, when finished, would amount to $1,260,000,000. The following table exhibits the low cost of American Railroads compared to those of Europe:

COMPARATIVE TABLE OF RAILROADS IN OPERATION.

	Eng. Miles.	Cost in Dollars.	Cost ℔ Mile
United States, 1856	24,476	$856,660,000	$35,000
Great Britain, 1855	8,297	1,487,916,420	179,000
France, 1856	4,083	616,118,955	152,0 0
Germany, 1855	8,213	225,000,000	71,000
Prussia, 1855	1,295	145 000,000	58,000
Belgium, 1855	1,095	96,500,000	90,000

DETROIT & MILWAUKEE RAILWAY.—As the progress of this road is watched with great interest by the citizens of Milwaukee, and of the State at large, we copy from the Detroit *Tribune* of Saturday, a brief account of its condition and prospects:

"The Detroit & Milwaukee Company have been gradually pushing their line forward, and to-day they have opened to St. Johns, one hundred miles from Detroit, reaching the centre of the State. Twenty miles more and they will be near Ionia, and this twenty miles they expect to have complete early in the spring, as we understand, and they will continue to lay iron beyond St. John's without making a new stop. We shall thus have the trade of the Grand River Valley this spring turned towards Detroit

The business prospects of the Detroit & Milwaukee road, it seems to us, are very flattering, indeed. They have carried over their line in the last six months over 129,000 local passengers; and their receipts have, in the same time, amounted to $148,342. At this rate, when finished, they will have per annum, for local traffic, over $660,000. This is quite equal to the local receipts of either the Michigan Central, or Michigan Southern. A few years will make a vast increase of their business, both local and through. We understand that in the grant of lands made by Congress, there is within the prescribed limit of fifteen miles of the D. & M. Railway, over one hundred thousand acres of land. As the granting of this land to this company will in no wise interfere with the grants to any other line in the State, it may be that the State will at once turn over these lands to this company. The lands ought to produce at least half a million of dollars, and we are right glad the benefit of this grant would enure almost wholly to the citizens of Michigan, they holding almost all of the stock of this company."

New England Unanimous.

After the fourth of March, New England will not have a pro slavery Congressman. The new Democratic policy has been the death of them all. Toucey lost his seat by his willingness to run away after negroes—Bradbury repealed himself with the Missouri Compromise—Wells and Williams sacrificed themselves on the altar of friendship for Pierce—Everett's absence from the Nebraska vote has led to his absence ever since—James has upheld the Administration to his own downfall—Allen, the sole remaining Democrat from New England, will owe his place, if he keeps it, to his free soil sympathies and votes; while in the other house every Representative from Maine, New Hampshire, Vermont, Massachusetts, Connecticut and Rhode Island, is a thorough-going and uncompromising Republican. Poor encouragement for doughfaces in that "section."—*Alb. Eve. Journal.*

GOOD DIVIDENDS.—The Buffalo *Commercial Advertiser* of the 16th inst., contains the following item:

We learn that the two heavy transportation companies of this city, the capital of each of which is $900,000, have made a declaration of dividends on the earnings of the past season.—The Western Transportation Co., was organized a year ago, and the present is the second dividend. It is of 8 per cent, payable on the 19th inst. The American Transportation Co.'s is 10 per cent, payable at the office in this city on demand. The season was a disastrous one, and both companies lost four or five propellers, besides carrying lake freight at very low rates a good portion of the season. Their canal business, however, was good, and the above dividends are a gratifying evidence of their soundness and good management.

ADVERTISING ONE'S BUSINESS.—We have just laid down a copy of the London Times, with the feeling which that journal always awakens in us—astonishment at, and admiration of the prodigious extent to which Englishmen, in the pursuit of wealth, advertise their business. The vaunted editorial ability of the Times, is, in our opinion, more than matched, upon more than one American newspaper. But its Advertising Supplement, and its own solid columns of infinitely varied announcements, are a wonder as unequalled in our Journalism, as it is characteristic of the most systematic and successful property-acquirers on the face of the earth. Whatever the English have got to sell, they advertise. The solid columns of the London Times are a reflection of the industry of a large part of the British people.

For a premium of a tenth part of one per cent, any Insurance Company in the world would assure to "Holloway" a vast fortune. The thoroughness which distinguishes his advertisement of his medicine business in the United States, is exceeded by his liberality and enterprise in this respect in the British papers. The pathway to fortune which Swaim took in Philadelphia with his Panacea, and Brandreth in New York with his Pills, and Moffat with his Life Bitters, and Phalon with his Lotion, Holloway is treading with a vigor and speed that leaves no doubt of the result. He will advertise himself into an enormous wealth.—*Albany Eve Journal.*

FIVE PERSONS FROZEN TO DEATH.—We hear that a man named Crowly, with his wife and four children, formerly residents of this city, a few nights since, started out from some place between here and Dubuque, (we could not learn where,) to take a sleigh-ride, but getting off the road and not knowing where they were, they could not find their way home, and were found next day frozen to death. This is the way we heard the story. What the real facts were we cannot state.—*Galena Courier, 16th.*

The Leg slature and Governor of Wisconsin.

[From the Chicago Democratic Press.]

JANESVILLE, WIS, Saturday Morning, Jan. 19th, 1857.

Madison, the Capital of Wisconsin, is universally admitted to be one of the most beautiful cities in the Mississippi Valley. Indeed, in many respects it would be difficult to conceive how its situation could be improved. Perched upon a beautiful, gently rising hill or swell, between two of "the four lakes," it affords some of the most delightful spots for residences that can be found anywhere. Our Wisconsin friends are justly proud of their beautiful and growing Capital; for since we were there four years ago last June, we observe evidences of substantial improvment on every side. It is the natural centre of a fine agricultural region, and this, with its beautiful location, and its other "Capital" advantages, makes it a very inviting spot for the business man, the gentleman of leisure, and just now it is the centre of many political aspirations, for

THE WISCONSIN LEGISLATURE

is now in session, and a Senator in Congress for the next six years is to be elected. Of course the Buchaniers stand no chance, but it is as yet difficult to tell on whom the choice will fall.—Judge Doolittle, Judge Howe and Mr. Holton, are the most prominent candidates. From all we could learn, we think the race lies between the two Judges. Either of them would make a most able Senator, and do honor to our sister State.

We spent most of the day on Friday in the halls of the Senate and House of Representatives. They are both a very fine body of men. Our neighbors need not fear to match them, both for intelligence and business tact, with "the powers that be" in any of the older States. While we were there, at least, we saw no deep disposition to speak for "buncombe," no efforts at clap-trap and political chicanery, but all seemed intent on attending properly to the high and responsible duties imposed upon them by their constituents. The Buchaniers, a few of whom are hanging about the Capitol, look terribly chop fallen; but there is no help for them, they have been weighed in the balances and found wanting. The people of Wisconsin are too intelligent to be the dupes of mere sham democracy, when the real substance has been deserted and disgraced by corrupt demagogues and would be party leaders.

Of course we did ourselves the pleasure of calling on his Excellency

GOVERNOR BASHFORD.

He is a most intelligent, courteous and agreeable gentleman. The people of Wisconsin have done honor to themselves and to correct principles in making such a selection. Like most, if not all, the former Governors of Wisconsin, he is a native of the Empire State.

The "Marquette Mercury" Case.

It will be remembered by many of our readers, that a newspaper called the Marquette *Mercury*, was published by J. H. Wells, at this place, for several years prior to the publication of the *Courant*, that George P. Gifford became a partner with Wells, and that subsequently the *Mercury* was sold from their possession by an old mortgage given by Wells. A new paper called the *Northern Wisconsin* was soon after started by Gifford, which was discontinued by injunction issued at the instance of Wells, and Gifford not long afterwards became engaged in mercantile pursuits. Before many months had elapsed, Wells obtained possession of the old *Messenger* materials, and printed a newspaper, which he named the Marquette *Mercury*, and represented to the public that he had obtained "his press" by a decree of court, and commenced a newspaper war upon Gifford, accusing him of non fulfilment of contract, collusion with the mortgagee, &c., which, as a newspaper controversy, would not have affected Gifford, but which, as Gifford had become engaged in mercantile business, was very injurious and libelous upon his character. Wells being irresponsible, Gifford was obliged to submit to his newspaper accusations, and rely on the law for redress. At the last term of the circuit court, the Commissioner appointed to hear the case made his report which now stands in judgment on record.

As this is a newspaper affair, and caused at the time considerable comment by the press, we deem it but suitable justice to Mr. Gifford to publish the annexed extract from the Commissioner's report. After many details, in which Gifford is shown to have fulfilled his part of the contract, the Commissioner concludes as follows:

"The Commissioner therefore reports, that there is due from the complainant, James H. Wells, to Geo. P. Gifford, one of the defendants, the sum of $1,096 92, as follows:

Value of property at time of purchase,	$1,100 00
" Material furnished by Gifford,	200 00
" Paper, " " "	50 00
Amount collected by Wells over the amount of $190 00 collected by Gifford,	441 46
Total.	1,791 46
Half of this sum,	895 73
To which add $131 19 for amount of material furnished over the contract,	$131 19
	$1,026 92
And the further sum of $200 00 for failure to perform his part of the contract and interest on the same at 7 per cent per annum,	259 50
Total due Geo. P. Gifford	$1,286 42

I hereby certify, that in making said report, I have used the original contract between the parties; the testimony of J. W. The Charity Ball at the Academy.

This was a great success. In numbers and respectability the festival of last evening has seldom, if ever, been surpassed. It is estimated that nearly 5,000 tickets were sold, at two dollars each; and the expenses can hardly exceed $3,000, which will leave a handsome sum for those excellent institutions,—the "Nursery for Poor Children," and the "Woman's Hospital." This is the third of a series of annual Balls, instituted by the Ladies in 1854; and, as the results have been so beautiful and delightful in the way of charity and amusement, we trust that will be regularly continued.

The crowd at the Academy last evening was very great; and it was impossible to circulate up stairs or down, without getting some hard rubs. But a more quiet, orderly, respectable and refined gathering we have never seen on any public occasion. There was no noise, no confusion—nothing from beginning to end to mar the pleasure of the guests, or the beautiful harmony of the occasion. The music—two bands of a hundred performers each, alternately, was grand; and the beauty of the women was fearful. Toilettes were elegant, but not outre; and the dancing gentle and graceful. Besides the "benefit" accruing to "charity," the party who furnished "refreshments," probably made something more tangible and immediately available than reputation. He charged $3 a bottle for Heidsick champagne, and two shillings for half a dozen shriveled oysters.

The Academy was brilliantly lighted, splendidly decorated; and, from the lower end of the stage, the *coup d' œil* was magnificent.—*N. Y. Times.*

BURNING OF THE PREPARATORY DEPARTMENT OF THE LAWRENCE UNIVERSITY.—In our last issue we announced the destruction by fire of the Preparatory Department building, used, for the last year, by the Female Collegiate Department of the Lawrence University.

The fire broke out about 1-4 past 9 in the evening of Sunday, January 4th. The whole attic, or the fourth story, was in flames when the fire was first discovered, and the scarcity of water rendered any attempt useless to save it. The young ladies who had rooms in the building were all at church; consequently no lives were lost. Six or eight of them lost all their clothing, money and jewelry, except what they had on, while others suffered slight losses.

The building, except a stone basement, was wood.

The loss to the students is, probably, $700; while the loss to the University, in furniture, pianos, and the building, is well nigh $7,000.—There is no insurance on the building or furniture. Most of the furniture was saved, though damaged, of course, by hasty removal.—*Appleton Cres., 10th inst.*

AWFUL CALAMITY—ANOTHER FATHER AND SON FROZEN TO DEATH.—It becomes our painful duty this week again to chronicle another sad and melancholy event. An old gentleman and his son from Ohio, named Price, were frozen to death on Saturday night, 13th inst., near the big Nemaha during one of the most terrific snow storms ever known in Nebraska. We have not learned the particulars in relation to this sad and most melancholy event.—*Nebraska-City News, Dec. 24.*

THE LAST RED CENT.—The fiat has gone forth. There are to be no more copper cents. This wealthy nation, rolling in "surplus revenue," in a few years will have "nary red."

The Cent was proposed in 1782 by ROBERT MORRIS, the great Financier of the Revolution, and was named by JEFFERSON, two years later. It began to make its appearance from the Mint in 1792. It bore then the head of Washington on one side, and a chain of thirteen links on the other. The French Revolution soon after created a rage for French ideas in America, which put on the Cent, instead of the head of Washington, the head of Goddess of Liberty—a French Liberty with neck thrust forward and flowing locks. The Chain on the reverse was replaced by the Olive Wreath of Peace.

But the French Liberty was short lived, and so was her portrait on our Cent. The present staid classic dame, with a fillet round her hair, came into fashion about thirty or forty years ago, and her finely-chiselled Grecian features have been but slightly altered by the lapse of time.

The new Cent is to be one-eighth nickel, and consequently much smaller, and much more convenient. It will be of a lighter color when new, though probably as dark when old. A flying Eagle is to take the place of Liberty's Head, in order that it may not be mistaken for the $5 Gold Piece.—*Albany Evening Journal.*

CIRCUIT COURT—Jan. 20.

HON. A. W. RANDALL, PRESIDING.

Sentence of the Murderer, Edward Dawson.

In the forenoon Edward Dawson was brought up from the jail to receive his sentence for the murder of Margaret Higgins, on the 27th day of December last. On being asked by the Court what he had to say why the sentence of the Court should not be passed upon him, the prisoner said, in a dogged, sullen manner, "I've nothing to say only that I'd nothing to do with it."

His Honor addressed the prisoner at some length on the enormity of the offence he had committed. He said that he was perfectly satisfied with the verdict of the jury—that he could hold out no hope to the prisoner of any mitigation, at any time, of the sentence he was about to pass, and that he (Dawson) must not look for hope. "I am satisfied," remarked the judge, "with the verdict of the jury, and that you did kill and murder Mrs. Higgins; that you committed this terrible deed, and that for this crime, committed by you, of so awful a nature, no excuse whatever has been offered or shown. The testimony showed you to have been intoxicated—that your reason was dethroned at the time you took the life of this weak and defenceless woman. You must go to that prison without hope, to serve out the remainder of your days."

The sentence was then passed—that of imprisonment for and during the term of his natural life—that the first ten days of the imprisonment be solitary confinement, and that ten days of each and every five years that he may live, be passed in solitary confinement.

The convict was then removed, having evinced no emotion whatever at the sentence of the Judge, but receiving the stern and solemn language of the Court, which produced the most perfect silence and awe upon all others present, without the least feeling of sorrow, or shame. He left the Court with a rapid step, slapping his cap on his head, and nodding to one or two as he left.

Dawson is the man who, two seasons ago, was in the fishing boat that was capsized about four miles out in the lake, and saved his life by swimming ashore—the other three were drowned. Far better would it have been for Dawson and his family, had he perished in the lake, breasting the waves of Michigan in a manly struggle for his own life, rather than to have taken the life of a woman in a cruel, cowardly and brutal way, and to have to end his days in the murderers cell in the State Prison.

No sentence was passed on Higgins, the motion for a new trial not having been disposed of.

ROBBERY WITH VIOLENCE.—The case of the State vs. John Shults and Recka C. Shults on a charge of having robbed Anton Roth, on the 6th of December, in the town of Milwaukee, of money and two pocket books, and a promissory note of the value of $4,500, was given to the jury about half past 6 P. M.

The two defendants in this case were not named in the indictment as man and wife; the evidence showed a joint act of robbery, attended with considerable violence; the female defendant having, after the complainant was thrown to the floor by Shults, and partly held there by his placing his knee on the chest of the fallen man, attacked the complainant with an iron poker and inflicted several wounds upon his head.

The defendant's counsel resorted to an old principle of law, and asked the court to instruct the jury that if the defendants, being man and wife, or reputed to be so related, although no proof of marriage existed, committed the act or offence charged jointly, the female defendant was entitled to acquittal at the hands of the jury, the law presuming that the wife acted under the coercion of her husband.

Upon this point his Honor charged in substance—that cohabitation, living together, reputation in the neighborhood as man and wife, is *prima facie* evidence of their being man and wife; that these facts were to be determined by the evidence in the case, and that the evidence showed that the defendants were man and wife, and that they committed the act jointly, the woman would be entitled to an acquittal; unless it was shown that the husband was unequal and unable to control the acts of his wife. That the idea of the subjection of the wife to the husband, and of her obligation to obedience, entered into the reason of the law, that threw the whole burthen of an offence, jointly committed, upon the husband, he being in effect, in such cases, made the scapegoat to bear the sins of the wife.

Several other points were, upon the request of the defendant's counsel, charged by the Court, when the case was given to the Jury, who retired for a few minutes, returning into Court with a verdict of GUILTY as to John Shults, *not guilty* as to Recka C. Shults.

An Attractive Lecturer.

We see that the Young Men's Christian Association have engaged the Rev. J. C. Richmond to lecture before them, his first lecture to be on Friday night. It is not often that we Milwaukeeans meet with a lecturer of such rare attainments and so great a traveller, unless we except Bayard Taylor. Mr. Richmond is far in advance of him in his great command of language, and his inimitable life-like description of his adventures. He was the first Episcopal minister who travelled as a missionary in Illinois, and then preached to the Germans in Beardstown in their own language, and had in his communion Lutherans, Calvanists, Reformists and Roman Catholics. In 1836, in a bedroom in a tavern in Peoria, he constituted Bishop Chase Bishop of Illinois, and founded Jubilee College. He has travelled over Europe, Asia and Africa; knows the cities, the men, their manners and their languages. From the Torrid zone to the Frigid he is probably the most travelled article that has appeared on the platform—was personally acquainted with Goethe, Wordsworth, Bunsen, Humboldt, &c., &c. Has seen 2 Popes, 2 Sultans and 2 Viceroys of Egypt; was the correspondent of the London Times and Daily News from the Turkish Camp.

He was shut up three months in a Lunatic Asylum in Massachusetts. He went over Germany, Switzerland, Tyrol, Greece, and a thousand miles up the Nile on foot. Mahomet like he has been over the world, with the Bible in one hand, and the sword in the other. There is no clergyman of the Episcopal Church, in regular standing so near to being a sort of Rob Roy. From his stores of recollections and travels, he brings out such rich stories and relations, that he has always crowded houses.

MRS. KEMBLE'S READINGS.—A large and critical audience assembled at Young's Hall last evening, to hear Mrs. Fanny Kemble read "Coriolanus." It was a most artistic performance and was thoroughly enjoyed—None who heard Mrs. Kemble last night will need any urging to attend the rest of her course. It is an intellectual treat which may never again be offered to our citizens.

To-morrow evening Mrs. Kemble will read the grand play of "*Julius Cæsar*," commencing at *eight* precisely; and it is hoped, as well for the satisfaction of the audience, as out of courtesy to Mrs. Kemble, that all who attend will be in their places by the hour named. The interruption caused by persons coming in, while the reading is in progress, is embarrassing to Mrs. Kemble and annoying to her auditors.

PASTORAL VISIT.—The friends of the Rev. Mr. Keene—and they are legion—are invited to meet at his modest Parsonage *this* evening. The Fifth Ward is the peculiar vineyard of Mr. Keene, and he has labored there, faithfully, untiringly and conscientiously, these many years past. He has succeeded in building up a good-sized congregation in that Ward, and while he has effectually secured their confidence and affection, has deserved well of his fellow-citizens in the other portion of the city. We hope that they will all remember him kindly to-night, and if not able to call upon him themselves, will at least send some token of their good will and substantial sympathy.

NUMBER ONE'S BALL.—We are requested to say that Military Gentlemen, attending the Ball of Engine Co. No. 1, to-morrow evening, are invited to appear in uniform. We hope that they will do so and thus add to the variety and brilliancy of the costumes at this Festival.

☞ On Thursday night Mrs. KEMBLE reads "Julius Cæsar." Tickets to the balance of the course, with reserved seats, Five Readings, admit gentleman and lady, *Four Dollars*. To be had at Hempsted's Music Store.

GERMAN THEATRE—MARKET HALL.—A superior entertainment is offered at the German Theatre, on Thursday evening, the performance being for the benefit of the Manager, Mr. Rittig. See advertisement.

LECTURE THIS EVENING.—It will be remembered that Dr. Boynton gives a series of brilliant experiments with his great Iron Battery, this evening, at Young's Hall. It will probably be the only opportunity our citizens will have to witness this wonderful machine, which has excited so much attention in New York, Boston and other eastern cities. Go early if you would gain admission, as the number of tickets is limited.

HOUSE FOR SALE.—J. S. FILLMORE offers for sale two lots, with a good house, in the Fourth Ward, at a bargain. See his advertisement.

☞ Adler, Newbouer & Co., will take Illinois money at par for goods.

GENTLEMEN desirous of acquiring a thorough Mercantile Education, are assured that the advantages presented at this institution are unsurpassed.

These advantages, grafted upon Mr. SALOM'S long practical experience in a variety of Counting Houses, have enabled him to elaborate a novel and valuable series of transactions, introducing all the great heads and ramifications of mercantile routine to be actually developed by the student. CITY LAND AND EXCHANGE OFFICE,
MICHIGAN ST., ALBANY BUILDINGS
MILWAUKEE - - WISCONSIN.
I HAVE been absent from our beautiful city for some three weeks in New York city and other cities east, on business which is for the general interest of our city. I expect to be home in eight or ten days, and will be prepared to attend to my business as usual. I would give notice to all my fellow-citizens who have property in city and in country for sale, to have their list made out so that I can have it in time to enter upon my books for spring sales. There will be one grand rush to our city this year. My office is now in one of those beautiful stores on Michigan Street, in the Albany Buildings, next to Mitchell's new Bank, directly opposite to Newhall's Hotel—where I now can receive all who have business in my line with comfort; and where they can have an opportunity to find out everything relating to real estate generally.
I also give my attention to the purchasing and selling of bonds and mortgages, and collecting of notes, &c., &c.—In the course of time I intend to have stated days for sale of real estate, stocks, &c., &c., at public auction.
The City Land and Exchange Office I design to be a general place, where all can come and transact business in real estate, bonds, mortgages, &c. &c. It is in a central part of the city. The room I have taken is eighty feet long. I intend to have it comfortably arranged, and all who have business in my line are cordially invited, and any information that they may want, and I can give, I will give it with pleasure.
CALEB WALL, Land Agent and Broker.

City Land Office.
AND EXCHANGE OFFICE.
IS NOW REMOVED to one of the new and beautiful store rooms on Michigan street, in Albany building, directly opposite the Newhall House.
The room I have have taken is next to Mitchells New Banking House; it is very large, and I intend to arrange it with comfort and convenience, and I would also say that I will give strict attention to the selling of Real Estate at public or private sale, and negotiate for Bonds, Mortgages and Stocks, will also contract for the sale of all descriptions of Dry Goods or Merchandize of any character, will advance money on stocks of goods, or purchase them, will collect notes and accounts in our city, and will make advances on them.
Having lived in this city going on fifteen years, and being engaged in this line of business, my knowledge is perhaps, sufficient for me to say that I can give any information that any one may want. All business left with me will be disposed of with despatch and promptness, as always has been my course.

WASHINGTON, Jan. 19.

TRIBUNE CORRESPONDENCE.—The Senate held a secret session to-day in which the question of the removal of Judge Lecompte from the Chief Justiceship was discussed. Gen. Cass enquired what had become of the nomination of Mr. Harrison to supercede Judge Lecompte, Chief Justice of Kansas which was sent into the Senate by the President some time since.

Mr. Toombs, as chairman of the committee, replied that the committee had not yet decided on what report they should make in relation to it.

Mr. Cass rejoined with considerable feeling that it was quite time some action should be taken on the subject.

Mr. Toombs said that for himself, as far as he was concerned, he was ready to report against it. He thought that it was an arbitrary assumption of authority for the President to attempt to remove a member of the Judiciary, merely because his decision happened to be contrary to his (the President's) wishes. The Judiciary should feel, when giving their decision, that their place did not depend on their giving an opinion, coinciding with the views of the Executive. The act of the President was such an exercise of power as should be checked by the Senate.

Mr. Cass replied, that however the case might be with regard to the members of the Supreme Court of the U. S. with regard to the Judiciary of the Territory the law had had been settled by a decision of the Supreme Court. It had been decided that the President had power to remove the Judges of the Territory.

Mr. Toombs dissented from such a decision.—If any had been made, he should consider it unconstitutional.

The question was asked, why the committee did not report one way?

Mr. Toombs answered, that they were waiting to hear Judge Lecompte's defence.

There was some further discussion on the subject. The general opinion seemed to be that the exercise of the power of removal by the President was constitutional under the circumstances.

The nomination of Mr. Spencer as Marshall for Kansas, in place of Donaldson was also considered.

A bulletin from the New York & Erie R. R. office says two trains have arrived from the west, one being the mail due yesterday, and the other due this A. M. A train left at noon for Dunkirk and Buffalo with a very fair prospect of getting through as there is no snow of any account west of Binghampton. The 10 o'clock Albany mail train started on the Harlem R. R. this A. M. for Albany.

WASHINGTON, Jan. 20.

Additional to corruption investigation. Mr. Simonton was re-called to-day, and informed by the committee, that they had come to the unanimous determination, to insist upon his answering the question in substance as follows:

As you have admitted that members of Congress have approached you confidentially, with the request to you to procure them a pecuniary interest, in measures pending the House, we ask you to give the names of such members. After some suggestions by the committee to the witness, as to the extent of its duty and power in such cases, Mr. Simonton answered as follows. I do not here dispute the powers of the committee. I have all due respect for the House and committee. My refusal is not based on a desire to screen individual members, nor can it be supposed that an answer to the question would reflect discredit on me. I have read in deference to the wishes of the committee, the case of Anderson against Dunois, and after full deliberation as to what I had to do in view of the case and from other considerations have come to the determination that I must persist in declining to answer, no matter what the penalty I may incur, because to do so would involve a dishonorable breach of confidence.

The President in response to a resolution of the Senate to-day, transmitted the voluminous correspondence relative to the Venzuelean government driving certain American citizens from the aves guano Islands.

Mr. Marcy in a letter to the American resident minister at Caracas dated the present month, urges him to press the settlement of this subject, on the Government of Venzuela.—Saying it is no defence for the spoliation of our citizens property, their forcible expulsion, and their heavy losses to say the island belongs to some other nation than Venzuela, and that there are facts sufficiently sustained by evidence of gross outrages on the persons property of our citizens, and of heavy losses thereon consequent.

The President sent to both Houses a message enclosing the correspondence relative to the restoration of the bark *Resolute* to the British Government, and showing that the joint resolution of Congress on that subject was strictly carried out. The President also transmitted a message enclosing a communication from the Governor of Tenn., offering this Government, in obedience to an act of the Legislature of that State, the Hermitage for a branch Military Academy.

In the executive session to-day the Senate committee on foreign relations made a favorable report on the Central American Treaty. The Senate assigned some day next week for its consideration.

HIGHLANDS, Jan. 20.

The brig wrecked near the Ocean House, on Sunday, proves to have been the *Emilius* of some eastern port, with a cargo of logwood, scrap iron and copper. She has gone to pieces, and the cargo is strewed along the beach. All the crew perished.

TRENTON, N. J., 20.

Hon. Wm. A. Newell was inaugurated as Gov. of N. J. at 1 P. M.

WASHINGTON, Jan. 20.

SENATE.—Mr. Clay spoke in opposition to the fishing bounty.

Mr. Seward favored the bounties as also did Mr. Fessenden. The bill was referred to Committee on Commerce.

The bill to establish a naval depot at Brunswick, Ga., was discussed for two hours but without coming to any conclusion on it. The Senate adjourned.

HOUSE.—The House passed a bill appropriating $20,000 for a penitentiary in Nebraska, establishing 3 additional land districts in that Territory, and for completing and opening roads in Washington, Oregon and Minnesota. House adjourned.

NORTHAMPTON, Jan. 20.

About half-past 8 o'clock last night a fire broke out in the North College at Amherst and the whole building was consumed. None of the students were injured and most of the furniture saved. The building was of brick and the newest and best constructed of the College. Insured $5000.

THREE P. M. REPORT.

Washington Items.

WASHINGTON, Jan. 20.

The Sergeant-at-Arms of the House, has sent a telegraphic despatch from Philadelphia, stating that he has arrested Mr. Chester, who refused to appear before the Corruption Investigating Committee this A. M. He was asked whether he, as agent, or in any other capacity, of any Company, ever executed any bond or obligation to convey any land or any other valuable consideration to any person or persons, on condition that any R. R. bill passed, or if pending in Congress, should pass. Mr. C. denied the right of the committee to enquire into his private dealings with persons other than members of Congress, and declined to answer the question, as he was advised by his counsel he had the right to do.

SENATE.—Mr. Clay, of Alabama, introduced a bill repealing all laws or parts of laws allowing bounties to vessels employed on the banks, or other cod fisheries.

HOUSE.—The House passed the bill extending the land laws to the lands laying east of the Cascade Mountains.

The House then took up the adverse report on the petition of the inhabitants of Arizonia praying for the establishment of a territorial government, and other business, in accordance with the special order.

Norris of Wisconsin, and failing to get satisfaction attached the specie.—The bank officers refused to give up the keys of the vault, and the officers had to work some hours to get an entrance. LESSONS IN Foreign Languages.

MR. AND MRS. L. S. H. DE CRETY, from Paris, for four years past instructors in foreign languages in Milwaukee, have the honor to inform the public that they will form classes in the French, Italian and Spanish Languages on the 1st of September next. The course of instruction will be according to the age and intelligence of the pupils, and the classes kept entirely separate, their house being arranged with that view.

Gentlemen and ladies who begin to speak either of these languages, can receive lessons in Reading and Conversation, Mr. De Crety furnishing books of the best French authors. Those too wishing to learn vocal music in either of those languages, will find a competent music teacher in the establishment.

The hours of instruction will be from 8 to 11 o'clock A. M., and from 2 to 5 P. M. And in the evening from half past 6 to 8, for conversation.

Mr. DE CRETY will also give lessons in French, Spanish and Italian, at his office, to gentlemen only, from 7 to 10 o'clock in the evening, as also lessons in Fencing, the use of the Sword, and all military exercises. Persons of delicate constitution and feeble temperament, as also those confined to their offices and engaged in sedentary pursuits, will derive from these exercises, improvement in their health, acquire strength in their limbs and find an agreeable recreation.

Mr. De Crety will also form similar classes for children, from 10 to 15 years old, at his house, or office, as parents may prefer. Fathers and mothers who desire to see their children strong, active and robust, can judge for themselves, after a few weeks trial, as to the effect of these different exercises upon their health.

The continued patronage of the public is respectfully solicited.

To MERCHANTS.—Mr. DE CRETY will take charge of French correspondence to all the principal cities of France and will procure all Price Currents that they may want.

BAYLIES & LINCOLN'S Milwaukee Commercial College,

212 and 214 East Water St., MILWAUKEE, - - WISCONSIN.

THE proprietors of the Milwaukee Commercial College would respectfully announce that the liberal patronage that has been extended to this deservedly popular enterprise has led them to extend the field of study, so that it will embrace every branch of a thorough Commercial Education. As there are no classes formed in any department of study—(thereby enabling the student to enter any time, each one receiving separate instructions)—the student, on entering, is placed in the Counting Room, with actual transactions to work from, thus making his education not merely theoretical, but practical to the last degree. The Commercial Course comprises Book Keeping by Double Entry, in its various forms, as adapted to Wholesale, Retail, Commission, Manufacturing, Custom House, Banking, Railroading, in stock partnership, and compound Company business, Commercial Calculations in percentage, Exchange, Bank and Regular Discounts, Averaging Accounts by Simple and Compound Equations, &c., according to the most approved methods. Commercial Correspondence, including account sales, account currents, drafts, bills of exchange, &c., &c.

Also, a perfect system of detecting Counterfeit Bank Notes, will be given to each student.

A good Hand-Writing guaranteed to every person completing a full course.

During the Seasons, Lectures on Commercial Law will be delivered by eminent legal and business men; and no pains will be spared to make this department particularly attractive.

The Reading Room will be supplied with the various Daily and other papers and publications.

Particular attention will be given to Ladies who may wish to acquire a business education, and separate rooms have been beautifully fitted up for their use.

Merchants and other business men are informed that, at any time, by a few days' notice, they can be supplied with competent Accountants, and young men will be assisted in procuring situations when desired.

THE UNDERSIGNED having purchased an interest in the Prairie du Chien, (lower town) offers on reasonable terms two hundred (200) lots, situated near the depot grounds of the M. & M. R. R. Co. Every Man his own Miller. PORTABLE CAST IRON GRAIN MILL. Young America Improved and Perfected.

THE above mill was patented by Charles Leavett, of Ill., Feb. 27th, 1855. This mill took the first premium at the Ohio State Fair, 1855, over all other mills, and during the fairs of the fall of 1856, the first premiums over many others in the State Fairs of Ohio, New York, Tennessee, Michigan and Minnesota, also, at the County Fairs of the following Counties of Ohio and Indiana, viz: Guernsey, Crawford, Logan, Medina, Ashland, Wayne, Knox, Montgomery Clark, Erie, Lorain, Richland, Plymouth district, Chester, Frederick. In Indiana, Tippecanoe, Jefferson, Wayne, Fayette, Shelby, Jennings, Warren and Fountain.

Farmers, Saw Mill owners, Livery Stable men and all others feeding stock of any kind are invited to examine the merits and superior advantages of the above mill.

The Young America will grind as much corn in the cob, shelled corn, oats, barley, and all other grains for stock as any mill of the same size and with much less draft.

What we claim is great strength, durability and simplicity, being so simple that a child can learn to grind with safety.

In the next we claim the small expense to renew the grinding parts of the mill, and the ease with which the grinders are put on the mill, at a cost of not over three dollars, which makes it superior and more economical than any other mill. The grinding parts of the above mill are made of the hardest of cast iron, as hard in fact as cast steel can be tempered. Each set will grind from 5,000 to 10,000 bushels of grain, with proper usage. Besides the set of grinders on the mill, an extra set will be sent with each mill sold, making it equal to two common mills. When found necessary to change the grinders, almost any one can do it in twenty minutes.

As a proof of the estimation in which the Young America is held in Ohio, we would state that during the fall, winter and spring of 1855-56, 2500 were made and sold in Ohio, at Zanesville, by Douglas, Smith & Co., Hall & Allen of Mansfield, Eldridge & Faucener of Cincinnati, and at New Philadelphia.

At this time there is not less than 200 being sold every week in Ohio, at retail, besides those sold in other states east and west.

The above mill is being manufactured and can be furnished at wholesale and retail, from the Wisconsin Iron Works of A. J. Langworthy, on the water power in the City of Milwaukee. The mill is warranted perfect in all respects.

Dealers in agricultural implements and machines, of the State of Wisconsin, are requested to call and make arrangements for the sale of the above mills, to whom a liberal discount will be made on the retail price; also any others wishing to engage in a profitable business. Would call attention to good men who have teams, in any part of the State, who would peddle the mills through the country. Four can be taken on a wagon at a time—liberal arrangements would be made with them.

The above mill will grind from 8 to 20 bushels of grain per hour, in accordance with the kind and condition of the grain.

Price of the Young America $55—ready to hitch to and warranted to grind as fast as any mill of the same size when properly worked, and with less draft.

For further information address or see the undersigned, sole owner of the right to the State of Wisconsin.

THE CELEBRATED HOLLAND REMEDY FOR **DYSPEPSIA, DISEASE OF THE KIDNEYS, LIVER COMPLAINT, WEAKNESS OF ANY KIND FEVER AND AGUE,**

And the various affections consequent upon a disordered **STOMACH OR LIVER,**

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous Rheumatic and Neuralgic Affections, it has in many instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on their strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Whoever expects to find in this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties.

CAUTION!

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given BOERHAVE'S HOLLAND BITTERS a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.

MEDICAL.

R. R. R.

THE MEDICAL TRINITY.

EACH of Radway's Three Remedies possesses special curative powers over certain diseases; and when either the Ready Relief, Renovating Resolvent, or the Regulators, are used for the certain class of diseases they are specially designed for, the system undergoes a rapid transformation from its diseased condition to a healthy and happy state of existence.

RADWAY'S READY RELIEF.

This remedy is to be used externally, or taken internally, for all pains, aches and infirmities. In a few minutes it stops the most torturing pains, subdues all inflammations and cures the worst cases of *Rheumatism, Lumbago, Gout, Paralysis, Neuralgia, Tooth-ache, Burns, Sprains, Strains, &c.* It restores the *lame, infirm and crippled* to soundness and vigor. It is likewise a certain cure and preventative for *Fever and Ague, Scarlet Fever, Smallpox, Croup, Hoarseness, Colds and Influenza.* Whenever you feel any unpleasant or painful symptoms, take a dose of Radway's Ready Relief, or apply it to the parts where the pain is located; in a short time you will enjoy ease and comfort.

Bear in mind, there is no pain so severe but that Radway's ready relief will stop, and no system so crippled with infirmities but that the R. R. R. remedies will restore to sound and vigorous health.

RADWAY'S REGULATORS.

The discovery of these wonderful pills establishes a new era in purgatives, and a new principle in the science of medicine. In taking these pills no griping pains or sickness at stomach is experienced; they operate naturally, leaving the bowels, liver and other organs in a natural condition.

They insure those who take them a good appetite and a healthy digestion.

Each pill that is taken gives new life to the blood; they purify it, take from it all impure deposits and equalise its circulation.

One or two doses of Radway's Regulators will entirely remove all distressing symptoms of Dyspepsia, Jaundice, Nervousness, Indigestion, Costiveness, Liver Complaint, Billiousness, Melancholy, and will cure all organic diseases, either in man or woman. Ladies troubled with irregularities or weakening discharges, may rely upon a prompt cure and regular periods if Radway's Regulators are taken.

PICTURE OF HEALTH AND BEAUTY.

A few doses of Radway's Regulators will insure a clear, fair, pure and healthy skin and a rosy complexion. They give to those troubled with weak, dull, yellow eyes, a clear and brilliant appearance. Radway's pills give a natural beauty to the face, eyes and head; and the use of the Ready Relief as a wash for the teeth, and an aromatic for the breath, will change the most disgusting foul breath to sweetness, and the blackest teeth to Parian whiteness.

One to ten of Radway's Regulators is a dose; they never do injury, but always do good.

CONGESTIVE DISEASES, APOPLEXY, TERMINATION OF BLOOD TO THE HEAD.

Persons of full blooded plethoric habits are more subject to congestive diseases, headaches, rush of blood to the head, than those of a lean habit; bleeding in these cases is highly detrimental, nor does this practice lessen the danger; the difficulty is not caused by too much blood, but by its disturbed circulation, and the irregular action of the *heart.* Now a dose of Radway's Regulators will correct all these difficulties—they will correct the action of the heart, liver, and all other organs to a natural and regular action, and will immediately equalize the circulation of the blood. Mere purging in these cases will only aggravate the disease.

Radway's Regulators not only *regulate* the bowels, by which all diseased and injurious matter is purged from *the body,* but they control the whole system, and hence, each and every organ, the heart, brain, liver, nerves, bowels, skin, pancreas, bladder, kidneys, stomach, lungs, throat, blood, and every tissue in the whole organization, to a healthy and regular action. They infuse new life throughout the whole system; their action is not confined to an local part of the stomach, like common pills, but they search out diseased action wherever it may be hidden, and expel all diseased humors and deposits from the body. In a few hours after taking a dose of these life creating pills you feel refreshed and invigorated from head to foot. We have known the dispirited and melancholy take a dose of Radway's Regulators *just to feel good—they make one feel so happy.*

RADWAY'S RENOVATING RESOLVENT.

Cures Humors, Salt Rheum, Scrofula, Ulcers, Nodes, Tumors, Fever Sores, Skin Eruptions, Blotches, Bronchitis, Dyspepsia, Gout, Dropsy, Syphilis Consumption, Apoplexy, &c.; and all constitutional and chronic diseases, either inherited by hereditary transmission, or inoculated by exposure, or otherwise.

There is no remedy in the world that will work such miraculous cures in old diseases as Radway's Resolvent. It changes the whole human body—reproduces new and healthy blood.

☞ Bleeding from the lungs—Radway's Renovating Resolvent will, in a few minutes, check Hemorrhage from the lungs or throat. In some severe cases the patient, coughs up clots of blood or pus streaked with blood. Radway's Resolvent will soon remove the difficulty.

☞ Sarah Hammond, of 193, East Thirty-Second st. had a bad cough for two years, she coughed up sometimes half a pint of blood during the night. She was cured in seven days by the Relief and Resolvent.

☞ A sore leg of 21 years cured in three weeks by Radway's Relief. Ms. T. H. Kilgo, a merchant, of high standing in Dahlonega, Ga., says:—"That a gentleman who, for 21 years, had been afflicted with a sore leg, that resisted every kind of treatment, was effectually cured in three weeks by Radway's Ready Relief, Resolvent and Regulators."

GENERAL COMPLAINTS.

If you catch a sudden cold, get a sore throat, or become afflicted with Influenza, a dose of Radway's Regulators, and an application of the Ready Relief, will free you from all pain and annoyance. In a few minutes after the Relief is applied no soreness will trouble you. If afflicted with headache, either nervous or from foul stomach, take Radway's Ready Relief, and a dose of Regulators, will move all pain from the head, and restore health to the nervous and afflicted.

Radway's Ready Relief and Regulators always cures *Dyspepsia* in its most distressing forms, and nervousness with all its horrors.

☞ WHOOPING COUGH.—Thousands of cases of Whooping Cough have been cured in a few days by the Resolvent and Relief, and if the Whooping Cough is prevalent in the neighborhood, those who take half a teaspoonful of Ready Relief in a little water, once or twice per day, will never catch it. Radway's Relief destroys the infection of the "Whooping Cough."

☞ TOBACCO CHEWERS.—Those who have become reduced by the effect of tobacco, or the indulgence in spirituous liquors, who feel the horrors of incapacity, weakness, sterility, and the *infirmities* which a misused and perverse, luxurious and lustful course of life inflicts upon its victims, will find relief from these horrors, and sure restoration to health, strength and vigor, by the use of Radway's Relief, Regulators and Resolvent.

HEALTHY BREAD! MADE WITH JAS. PYLE'S DIETETIC SALERATUS.

THIS article is deprived of the caustic impurities, so well known to exist in all common Saleratus, those by dealing destruction to thousands, no aware of its injurious qualities. So destructive is it to the constitution of children, that where they and the parents have been regular consumers of Saleratus Bread, there is but little chance for recovery from infantile or contagious diseases. In this way thousands meet with premature Death—the sad realty of which is forcibly demonstrated, in the mortality among children, in the New England, and other States, where warm bread and cake is so generally consumed.
